Built Different: Youth Empowerment Wellness Summit

CCHPP had the opportunity to table at the Built Different: Youth Empowerment Wellness summit.

Hundreds of youth, families, community leaders, and mentors came together in support of mental wellness.

The event featured free food, grocery giveaways, wellness activation activities, and community resources.

The event was an uplifting and empowering celebration of community, self-care, and entrepreneurship.

Community Updates

STEAMFest

The Compton Community Health Professions Partnership had a tabling opportunity at STEAMFest, hosted on the Compton College campus.

The STEAMFest event was a great success, with over 100 booths and vendor tables featuring student projects, community resources, and interactive workshops for the thousands of registered attendees.

Middle and elementary school students from 32 Compton Unified School District schools showcased their coding projects and competed against one another. In addition to coding and robotics projects, students also showcased art projects, including interactive displays.

The event also featured workshop activities where kids were able to build their own wooden containers, piggybanks, and other crafts.

Announcements, Internships, and Resources

Congrats, Grads!

On behalf of CCHPP, we want to congratulate all recent graduates and wish you all the best as you explore next steps.

Whether you are continuing your education, entering the workforce, or exploring your next step, we hope these resources support your journey.

Your dedication and perseverance do not go unnoticed.

Congratulations!

Happy Pride!

June is Pride Month, and CCHPP proudly celebrates all our LGBTQ+ community members this month and throughout every year. We celebrate LGBTQ+ joy, creativity, cultural impact, art, and bravery.

Pride month was not freely given, and is only possible thanks to the activism of LGBTQ+ activists who fought for equal rights and visibility.

The struggle for LGBTQ+ rights is not over and CCHPP is committed to advocating and providing resources for this beautiful community, always.

We want to hear from you!
Students and community members are encouraged to scan the QR code to complete a survey, submit questions, or join our mailing list.

Internships and Scholarships for Students

CCHPP is actively updating our list of OPEN internships and scholarships for both college and high school students. To access:
