STUDENT LEARNING OUTCOMES (SLO)

SLO/PLO/ILO HOME PAGE

The Mission of Compton College is to offer quality, comprehensive educational programs and services to ensure the educational success of students from our diverse community. Central to this mission is student learning, which is not restricted to interactions between students and instructors in a classroom. Instead, the entire campus works together to support student learning in all of our courses, programs and services.

To begin the assessment process, faculty are encouraged to contact Compton College's SLO Assessment Coordinator or their division's SLO Facilitator (listed on the [Contact Us page](#)) for more information
