Compton Center Goals from the Educational Master Plan

1. The Center will become an independent, fully-accredited college within the Compton Community College District sometime during the decade ending in 2020.
2. The Center must serve the community's needs and the college-going population more equitably than it does now, so that the student body more equitably represents the communities' populations.
3. Facilities and access to technology need to be greatly enhanced.
4. The Center will need to hire substantial numbers of new employees to replace the large numbers of expected retirees. Consequently, providing professional development and leadership opportunities, especially for faculty, will be of paramount importance.
5. The Center will need to maintain consistency in leadership positions while also being flexible to the changing needs of the community, employees, and students.
6. The Center must focus on students' achievement and attainment of their goals.
