   b) The committee expressed concerns that the OER Committee's website is hard to reach. The committee believes that the OER information should be at the front of the college's website in order to reach more students. The website should be student facing and information on the site should not strictly be committee agendas and minutes. Steven Gonzales and Nathan Lopez volunteered to develop a plan to present changes to the OER website
V) OER Handbook – Katherine Marsh
   a) Dr. Mathews presented a question about the Handbook and the plan currently developed by the OER Workgroup. The committee agreed to that the OER Handbook and the Workgroup's plan should be separate. Moreover, the OER Handbook should be a living document that will be updated as needed in the future. The committee will review the current OER Handbook and comment on any changes the document needs to reflect. Changes and comments will be conducted on a timeline in order to present a consistent document, but one that reflects any new changes to OER.
