

Technology Committee Meeting Minutes

Meeting Date: October 25, 2017

Meeting Time: 3:00pm-4:00pm

Vision

Compton College will be the leading institution of student learning and success in higher education.

Mission Statement

Compton College is a welcoming environment where the diversity of our students is supported to pursue and attain academic and professional excellence. Compton College promotes solutions to challenges, utilizes the latest techniques for preparing the workforce and provides clear pathways for transfer, completion and lifelong learning.

Meeting Participants

Andrei Yermakov
 Rodney Murray
 David Maruyama
 Art Leible
 David Simmons

Eduardo Estrella
 Nicole Gordon
 Brent Kooiman
 Celia Valdez
 Clifford Seymour

Andree Valdry
 Gary Narusawa
 Thomas DeHardt
 Dale Ueda
 Alexys Quero

Meeting Minutes

- **Review and Approve Minutes from – Sept 27th**
 - Minutes from the September 27th meeting were reviewed, a motion was made and seconded to approve the minutes.
- **California Great Shake Out Drill**
 - There was some discussion about the drill on Oct. 19th and the effectiveness of the new PA systems on campus. It was determined that the sound was more effective from the pre-recorded message than the message that was played into the system from another device.
 - The volume in certain areas will likely be adjusted to make the speakers more effective. Other suggestions were to add an emergency tone prior to announcements to get the attention of the campus.
 - All the speakers in the Library are not connected which left some areas unable to hear the emergency announcement. That issue is currently being addressed.
 - Other suggestion regarding the Shake-Out Drill were to also send the notification through the Nixel system. Expanding the PA speakers in Tartar Village will be discussed. (budget)

- **ADA Technologies**
 - Clifford Seymour presented to the committee a presentation about browser accessibility. These technologies assist students who may require special learning resources. There was some a display and discussion on the browser extensions and it was suggested that this presentation should also be presented to the Academic Senate and at the Divisions meetings. (PowerPoint available)
 - The Hi-Tech center is currently using the application that were mentioned in the presentation. There was more discussion on the importance of this technology, and how it can be used with online and face to face courses.

- **Discussion Items**
 - **ERP/ SIS System – RFP** was advertised today. Waiting for vendor response. The consultant that was hired will directly notify all vendors.
 - **Microsoft Infrastructure for Compton College Update** -Andrei discussed the timeline and process with the committee for switching everyone over to Compton.edu

The Next Scheduled Meeting
November 22nd
3:00pm-MIS Building.
