Definitions and Explanations

Student address records were pulled from the local student information system. Then, student records were compared with 2024-2025 Management Information Systems (MIS) referential enrollment data from the California Community College Chancellor's Office (CO). The resulting records were processed with graphic software to produce latitude and longitude for each student. This information was mapped using QGIS software, and then combined with additional MIS data fields to complete the metrics described below. Overall student counts should be interpreted based upon the data sources used in the calculations. The 2024-2025 boundary is reflected for that year's data points. Historical data points are based on the former boundary.

Number of Students – The distinct headcount of students within a term who enroll in a course. Students may be represented multiple times across terms.

Placement – Taking transfer-level math and English is essential for college students. Percentages reflect the number of students who enroll in transfer-level math and English of the total number of students enrolled in math and English courses in Fall 2024.

Demographics – The percentage of students from the district with given demographic characteristics, compared to the overall percentage of Compton College students with those characteristics. All demographic data reflects students from the 2024-2025 academic year.

Enrollment Level – The count and percentage of students enrolled full-time (12 or more units) or part-time (less than 12 units) during the fall or spring terms.

Persistence Rate – The count and percentage of students who enrolled in fall 2024 and again in spring 2025.

Success Rate – The percentage of enrollments that produce a passing grade (A, B, C, P, IA, IB, IC, or IPP) for a course over all enrollments.

Retention Rate – The percentage of students who remain enrolled in their courses without withdrawing, regardless of the grade they receive.

Majors – Rank of majors based on the number of Compton College students from the district who have declared these majors as their area of study.

Guided Pathway Divisions- Count of students enrolled by their Guided Pathway Division based upon major.

Basic Need Supports- Count of students who newly accessed basic need supports in 2024-2025. Technology includes laptop, Wi-Fi, calculators, or headsets. Food includes CalFresh referrals, Everytable, and Uber Eats. Housing includes Coalition for Responsible Community Development housing referrals. Transportation includes any student transportation support.

Median Earning Changes – The change in earnings between the second quarter prior to the academic year of entry (2022-2023) and the second quarter after the academic year of exit among all students who exited Compton College (and who did not transfer to any other postsecondary institution).

Working in Field of Study- The proportion of CTE outcomes survey respondents who say they are working in a job very closely or closely related to their field of study (2021-2022).

Attained the Living Wage- Among all students who exited the community college system and who did not transfer to any postsecondary institution, the proportion who attained the district county living wage for a single adult measured immediately following the academic year of exit (2022-2023).

Occupational Projections – This information reflects employment data obtained from Lightcast (https://lightcast.io) for Compton College's Metropolitan Statistical Area (MSA) of Los Angeles, Long Beach, and Anaheim. Data points include the annual job openings in 2025, the projected job openings in 2035, the percent change over time, and the median hourly earnings. The report presents these projections by percentage change.
