

# **Student & Community Advancement Program Review**

## **WHY CONDUCT A PROGRAM REVIEW?**

Program review is a process that asks members of a department to critically assess their programs, identify necessary adjustments, and design a mechanism to institute and evaluate proposed changes.

Desired outcomes from the program review process include evaluation of program effectiveness, program development and improvement, clarification and achievement of program goals, linkage of planning and budgeting by posting the recommendations in the College's planning software, and compliance with accreditation and other mandated reviews.

## **WHAT IS THE PROGRAM REVIEW PROCESS?**

The program review process for Student and Community Advancement (SCA) will consist of four steps: *initial planning*, *program review documentation*, *approval*, and *dissemination*. It is expected that these four steps of the program review process will take less than one academic year to complete and that each program will be reviewed on a scheduled 3-year cycle.

### Initial Planning

A training workshop will be held for program representatives the semester preceding the scheduled program review. The workshops should include as many of the members of the program as reasonably possible. The training will cover an orientation to the process, dissemination of basic research data, discussion of timelines and expectations, and answers to program review questions. Each program under review will need to select two representatives to oversee the program review process. At least one representative must be from within the program.

### Program Review Documentation

Program representatives will collect and report documentation to describe the program's current status and to create a basis for all program improvement recommendations. Program representatives will work with Institutional Research and Planning to design and conduct a student/client satisfaction survey to gain insight from others who are outside of the program. All program personnel should be given the opportunity to review and comment on a draft of the report prior to the submittal of the report to the Vice President of SCA.

### Approval

The Vice President of SCA will review and provide comments to the program manager prior to approval and dissemination.

### Dissemination

Approved program reviews must be made available in the department/division offices. Recommendations for program improvements in the form of objectives and success indicators must be linked to the College's strategic goals and be entered into the College's planning software before the end of the fiscal year in which the review was conducted. Additional reports will be provided to the President's Cabinet for review upon request.

## **PROGRAM REVIEW OUTLINE**

The SCA program review has four sections: *Overview*, *Program Data*, *Program Requirements*, and *Recommendations*. Each section seeks information that will aid program personnel with describing the program, environmental factors that might impact the program, and recommendations for program improvement. An outline of the program review is listed below. Instructions have been listed in each section throughout this document.

### **I. Overview**

- Program Profile: Provide descriptive information about the program including objectives, funding source, student/client profile, etc.
- Status of Previous Recommendations: List the current status of recommendations that were made in the last program review.
- Continuing Recommendations: List prior recommendations that are expected to continue.

### **II. Program Data**

- Student/Client Satisfaction: List and analyze student/client satisfaction survey data. Work with Institutional Research and Planning to create and disseminate a customer satisfaction survey in order to complete this portion of the program review.
- Student/Client Outcome Data: Provide trend analysis of program data (metrics) and recommendations for program improvement.
- Campus/Community Collaboration: List collaborative efforts, ways to strengthen program efforts, and what new effort should be pursued for program improvement.
- Program Data Recommendations: List all recommendations made in the three Program Data sections (Student/Client Satisfaction, Student/Client Outcome Data, and Campus/Community Collaboration).

### **III. Program Requirements**

- Program Support: List campus departments that are essential to the success of the program, the impact of those departments on the program, and what is being done to strengthen the partnership with those departments.
- Facilities and Equipment: Comment on the adequacy and immediate- and long-range facilities and equipment needs of the program.
- Staffing: Describe the adequacy/inadequacy of the program's current and future staffing levels and list personnel training needs.
- Planning: Analyze external and internal information to determine changes or trends that will impact the program within the next five years. Explain how the program's planning process involves program staff, and ties into student learning outcomes.
- Program Requirement Recommendations: List the recommendations from the four Program Requirement sections (Program Support, Facilities and Equipment, Staffing, and Planning).

**IV. Recommendations** – Provide a prioritized list of all recommendations made throughout this program review. List strategies program personnel will utilize to aid in the achievement of each recommendation. Create objective statements and success indicators for each recommendation and enter into the College's planning software.

## **I. Overview**

### **A. Program Profile**

*Instructions: The program profile should contain the program name, primary objectives, funding source(s), a profile of the students or clients served, and any other information that will provide the reader with a more complete understanding of the program.*

### **B. Status of Previous Recommendations**

*Instructions: List the current status of recommendations that were provided in the last program review.*

### **C. Continuing Recommendations**

*Instructions: List the recommendations that are expected to continue as a result of this program review.*

## **II. Program Data**

### **A. Student/Client Satisfaction**

*Instructions: List and analyze the results of the student or client satisfaction survey. Based upon the analysis what program improvements should be made. Assistance from Institutional Research and Planning will be necessary to create, distribute, and tally the survey.*

### **B. Student/Client Outcome Data**

*Instructions: This section requires the analysis of student or client program data (i.e., metrics) that has been collected over the past three years. Metrics should be thought of as program specific data such as the number of students/clients who utilized various segments of your service over a specific period of time.*

*Examples include the number of students who met with a counselor, successfully completed their financial aid packet, applied on-line, referred to a company for an interview, or completed training.*

Analyze program data. Identify and list trends found in the data.

Based upon the trends and performance indicator data (e.g., metrics) what changes, if any, should be made to improve the program? All program improvements must be tied to the data.

### **C. Campus/Community Collaboration**

*Instructions: List collaborative efforts with the campus and external community that are designed to benefit the program. List how the collaborative efforts should be strengthened and what new collaborations or partnerships should be pursued to improve the program.*

What program functions are dependent upon external collaborations or partnerships with other programs or services on campus or in the community? Describe the effectiveness of each collaboration or partnership.

How can program personnel strengthen these collaborations or partnerships?

What other collaborations or partnerships should program personnel pursue for program improvement and why?

### **D. Program Data Recommendations**

*Instructions: Compile all program data recommendations from A – C.*

## **III. Program Requirements**

### **A. Program Support**

*Instructions: List campus departments that are essential to the success of this program, the impact of those departments on the program, and what is being done to strengthen the partnership between each.*

All programs depend upon the support of other departments on campus. What is the impact of those departments on this program and what can program personnel do to further strengthen those relations?

### **B. Facilities and Equipment**

*Instructions: Provide a summary of the current state of the program's facilities and equipment and list recommendations if appropriate.*

Describe the adequacy/inadequacy of the facilities and equipment available to the program.

List recommendations regarding facilities and equipment.

### C. Staffing

*Instructions: Describe the adequacy/inadequacy of the program’s current staffing level and the training needs of program personnel. List recommendations based upon question responses.*

Describe the adequacy/inadequacy of the program’s current staffing level.

#### Personnel Trend

Personnel Type	Current Level		In 3 - 5 years		Retirement	
	# of Staffing	FTE	# of Staffing	FTE	# of Staffing	FTE
Full-time Faculty (Tenure Track)						
Full-time Faculty (Non-Tenure Track)						
Part-time Adjunct Faculty						
Full-time Classified Staff						
Part-time Classified Staff (Permanent)						
Part-time Classified (Temporary)						
Casual Employees						
Student Employees						
Manager						
Supervisor						
Temporary Project Administrator						
Faculty Coordinator						

FTE: Full Time Equivalent (i.e., 2 employees working at 50% would equal 1 FTE)

How does this data impact the program or the future of the program?

Are program personnel current in their field? If not, describe what is needed to maintain currency and how it will improve the program.

List and prioritize all staffing recommendations.

### D. Planning

*Instructions: Analyze external (advisory committee input, academic/trade journal articles, or other appropriate sources) and internal information to determine changes or trends that will impact the program within the next five years. Explain how the program’s planning process involves program staff, and ties into student learning outcomes.*

What major changes or trends might impact the program in the next five years? What program plans are in place or will be created to respond to major changes or trends?

What data, not currently provided, would be needed to improve program development planning? Explain the type of data desired, why it will be useful, and list the possible sources if known.

Describe how program personnel are made aware of what is happening in the program, future program plans, external/internal changes affecting the program, and changes that need to be made to enable the program to adapt and continue to be successful.

Explain how program personnel are involved in the creation and implementation of program plans?

Describe how the program's plans tie into student learning outcomes.

### **E. Program Requirement Recommendations**

*Instructions: List all recommendations made in the program requirement section.*

### **IV. Recommendations**

*Instructions: Provide a prioritized list of all recommendations made throughout this program review and list, where appropriate, the cost associated with each recommendation. List the strategies program personnel will pursue to aid in the achievement of each recommendation.*

Show the linkage to the institution's goals by stating each program review recommendation as an objective statement with corresponding success indicators in the form of an action plan. *Enter all action plans into the campus planning software.*
