INTRODUCTION

The El Camino College Community Educational Center Annual Fact Book is a reference source containing trend data about students, student outcomes, and instructional programs and services. The data and analysis in the fact book provide background information to facilitate policy analysis and decision making. It should be a useful tool in college and departmental planning, grant preparation, and in the accreditation process. It is our hope that the information provided is used to objectively evaluate programs and practices as well as visualize the trends that affect El Camino College's current and future operations.

Demographic and enrollment data on Compton Educational Center (CEC) students was provided by the Chancellor's Office. Some of the data in the Special Programs section was extracted from the college's student database. In addition, data from the National Student Clearinghouse was used to provide transfer destination information.

The Fact Book was composed and assembled by Carolyn Pineda. Special acknowledgement goes to Dwight Ueda, El Camino College Photographer, for providing the photographs used in this publication and Theresa Clifford, First Year Experience Secretary, for creating the cover page.

Compton Community College District

ENROLLMENT BY ZIP CODE (7.5 MILE RADIUS)

In the 2009-2010 academic year, 73% of the student body live within a 7.5 mile radius from the Center. Of these students, 42% live within the Compton district while 32% are from outside the district. Twenty-seven percent of students enrolled in 2009-2010 live beyond the 7.5 miles radius. Starred zip codes are located within the district.

SECTION 2 – STUDENT AND ENROLLMENT TRENDS

TOTAL ENROLLMENT

From 2006 to 2009, the Compton Center experienced a significant increase in unduplicated student headcount. There was a 14% increase in enrollment from the 2006-2007 to 2007-2008 academic years. From 2008-2009 to 2009-2010, enrollment increased by 28%. It is expected that enrollment will begin to plateau in the coming years.

ENROLLMENT BY GENDER

The Compton Center has a large female population. Sixty-three percent of students are female while 37% are male.

ENROLLMENT BY AGE

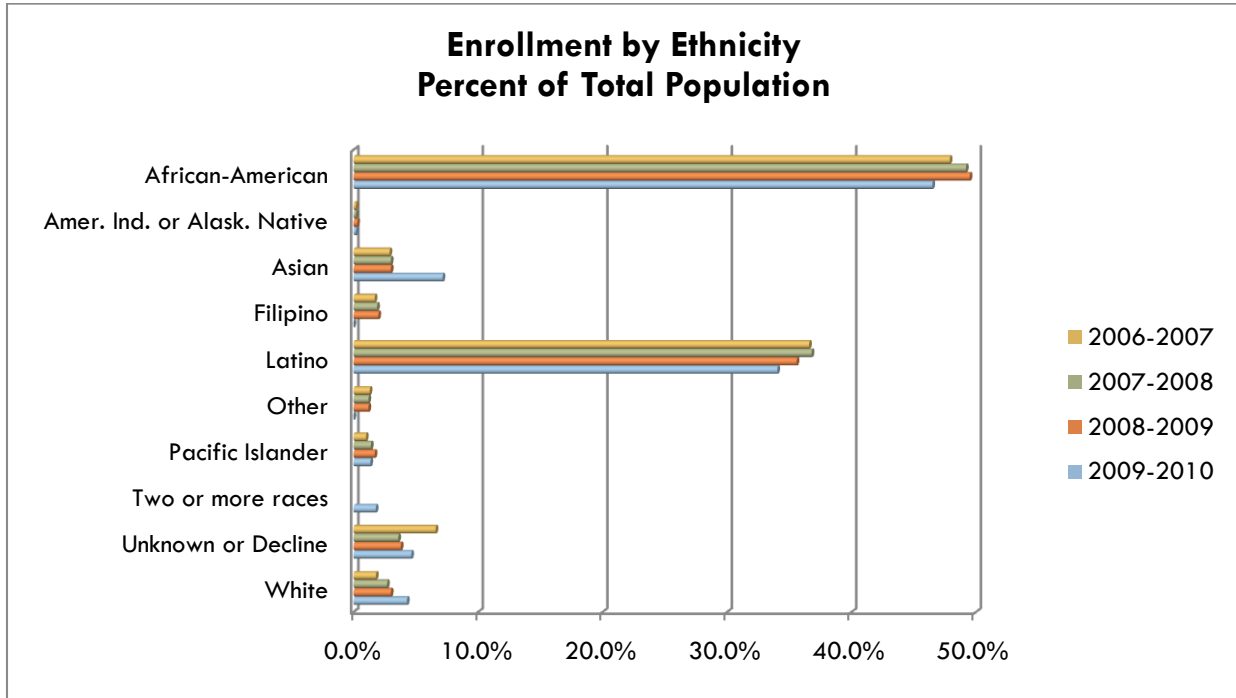

Fifty-six percent of enrolled students are between the ages of 18 to 24. Working adults ages 25-44 comprise 34% enrolled student while 8% of students are ages 45 and older. The majority of enrollment growth in the last year was among the 20-24 age group which increased by 41%. Working adults ages 25-44 increased by 30% in 2009-10 while ages 19 or younger increased by 14%.

ENROLLMENT BY DAY AND EVENING

Approximately two-thirds of students enroll in at least one daytime course while 24% are exclusively in evening courses. The majority of growth was in enrollment in daytime courses which increased by 31% in the last year.

*Irregular meeting times, including distance education.

ENROLLMENT BY HIGH SCHOOL

The majority of enrolled students come from local high schools within the Compton district. The top three high schools are Compton High, Dominguez High (in Compton) and Lynwood High School. In the last year, enrollment from Carson Senior High and Jordan Senior High increased by 38%. Enrolled students from Centennial High increased by 34% while students from Dominguez High increased by 28%.

CALWORKS

CalWORKs is the community portion of the California Work Opportunity and Responsibility to Kids Act. CalWORKs funds assist single parents receiving Temporary Assistance for Needy Families (TANF) to transition off welfare and achieve long-term self-sufficiency through specialized career ladder services, including case management and on campus work study, in coordination with the Los Angeles Department of Public Social Services. Approximately 6% of the student population participates in CalWORKs. In the last year, the number of CalWORKs participants increased by 165 students, a 29% increase. This can be attributed to the successful community partnerships that the CalWORKs program has established. The CEC CalWORKs program has built one of the largest work study programs in Los Angeles County which attracts both potential students and community referrals.

DISABLED STUDENT PROGRAM AND SERVICES (DSP&S)

The Compton Center established a special program to assist students with disabilities in their pursuit of a post-secondary education. The purpose of this program is to assist disabled students to perform on an equal basis with non-disabled students in an integrated campus setting. Since the partnership with El Camino has increased stability within the program, the number of students with registered disabilities has steadily increased. About 2% of CEC students have a registered disability. During the 2009-10 academic year, 276 students had a registered disability. The most common disability is psychological disability followed by mobility impaired.

Total	91	146	204	276

EXTENDED OPPORTUNITY PROGRAM AND SERVICES (EOP&S)

Extended Opportunity Program and Services (EOP&S) is designed to assist low income and educationally disadvantaged students achieve their educational goals at the Compton Center. It provides eligible students with support services in the areas of counseling, peer support, financial assistance, transferring and tutorial services. Approximately 9% of the CEC students are in EOP&S. In 2009-10, there was a 19% decrease in the number of students in EOP&S or CARE. This decline is due to reduced state funding the program received in the 2009-10 academic year.

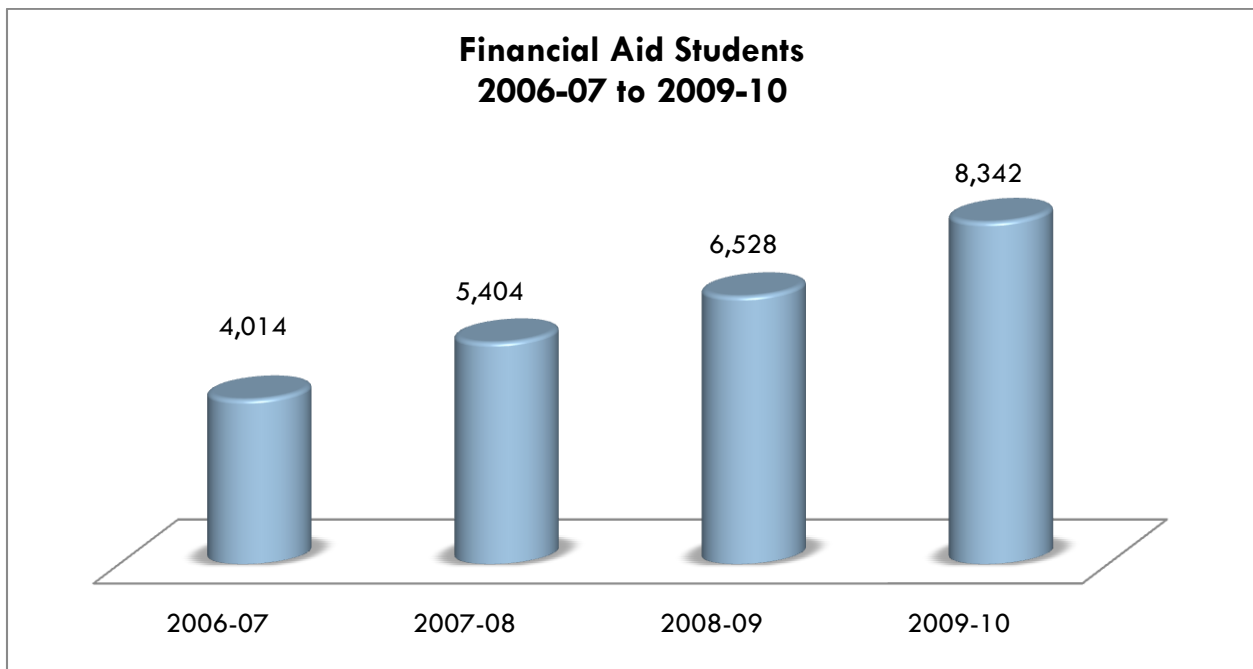

FINANCIAL AID

An average of 33% of CEC students received financial aid. The largest Financial Aid program is the Board of Governor's Fee Waiver (BOGW). There were a total of 5,408 BOGW recipients in 2009-10. The second largest program is the Federal Pell Grant with 2,060 recipients in 2009-10.

The next largest program is the campus-based-Federal Work Study (FWS) and Federal Supplemental Educational Opportunity Grant (SEOG). In 2006-07, the first year of the partnership between El Camino College and the Compton Center, the campus-based awards were distributed between the two colleges. There was a drastic drop in allocation of Federal Work Study from 2007-08 to 2008-09 resulting in a 66% decrease in number of students who received FWS.

The average financial award increased to over \$1180 in 2009-10 and a larger percentage of students (36%) received financial aid compared to the previous year (31%).

INTERNATIONAL STUDENTS

The number of international students has decreased from 151 in 2008-2009 to 113 in 2008-2009 academic years.

VETERANS

After remaining unchanged for three years, the number of veteran students increased to 9 in 2009-10.

SECTION 4 – SUCCESS AND RETENTION

OVERALL SUCCESS AND RETENTION

Student academic performance within a term can be measured in several ways. Most common are student *retention* (completing a course, regardless of final grade) and *success* (completing a course with a C/P (Pass) or better).

Looking at all courses across the curriculum, there is an average success rate of 61% and retention rate of 73%. Success and retention rates have increased slightly in the 2009-10 academic year.

BASIC SKILLS SUCCESS AND RETENTION

Students who take basic skills courses have an average success rate of 48% and retention rate of 68%. The average basic skills success rate is 13 percentage points below the overall success rate. On the other hand, the average basic skills retention rate is 6 percentage points below the overall retention rate. Both success and retention rates increased in 2009-10.

TRANSFERABLE SUCCESS AND RETENTION

The success rate for transfer-level courses averages 64%, slightly higher than the overall and basic skills success rates. The average retention rate for transfer level courses, 75%, is also slightly higher than the overall and basic skills rates. Success and retention rates remained stable in 2009-10.

CREDIT/DEGREE APPLICABLE SUCCESS AND RETENTION

The average success rates for non basic skills, non transfer courses are lower in comparison to overall and transferable courses. The retention rates are lower in comparison to the three previous course types. Over the last four years, credit/degree applicable courses average a 54% success rate and 70% retention rate.

CAREER AND TECHNICAL EDUCATION SUCCESS AND RETENTION

The average success and retention rates for vocational courses are higher in comparison to the basic skills and credit/degree applicable courses. In the last four years, career and technical education courses average a 66% success rate and 76% retention rate. In the past year, success and retention rates increased slightly.

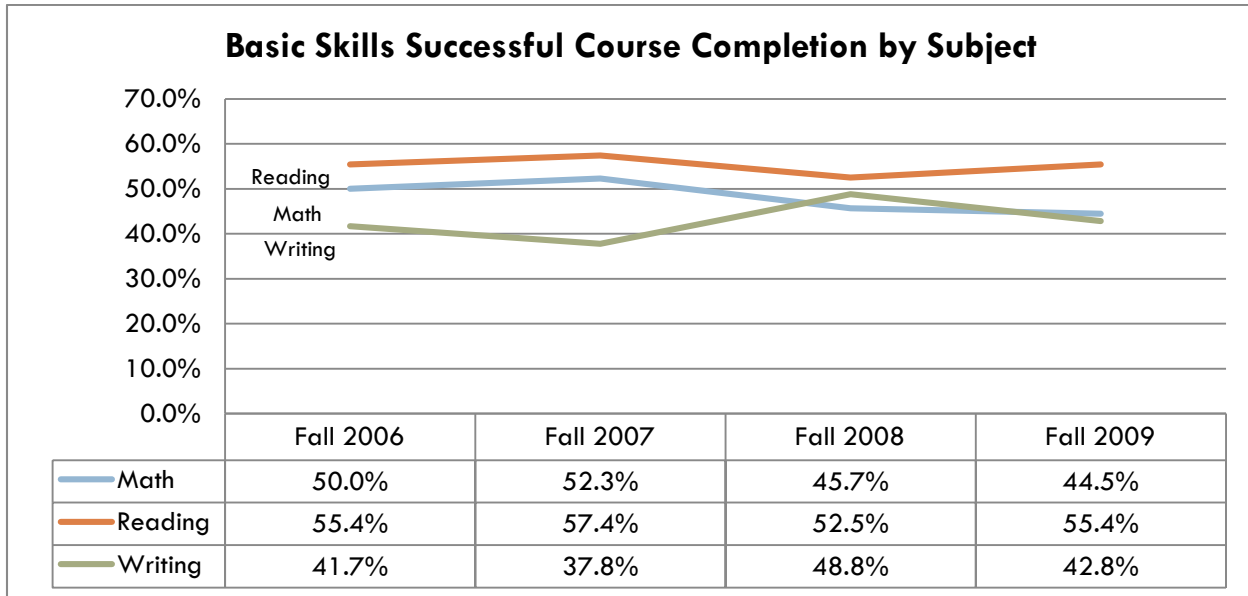

SECTION 5 – STUDENT OUTCOMES

BASIC SKILLS SUCCESSFUL COURSE COMPLETION

The success rates for basic skills math declined slightly from Fall 2008 to Fall 2009 while reading rates slightly increased during the same time period. In the last year, the success rate for basic skills writing decreased by 6 percentage-points.

PERSISTENCE RATES

Student persistence refers the tracking of students over several terms. Persistence rates are based on two fall cohorts over four semesters, looking only at fall and spring enrollment. For the fall cohorts, the tracked trends are stable for the three cohort groups. For the first-time, full-time cohorts, there was a 7 percentage-point increase in persistence rates for the Fall 2009 cohort. In addition, there was a 5 percentage-point increase for the Fall 2009 overall cohort. Overall, the first-time, full-time cohorts have a higher persistence rate than overall fall cohorts.

Student Persistence over Four Semesters Fall 2006 to Fall 2009 Cohorts

First Time, Full Time Student Persistence over Four Semesters Fall 2006 to Fall 2009 Cohorts

DEGREES AWARDED

Compton Educational Center has awarded a total of 584 degrees and certificates in the last four years. From 2008-2009 to 2009-2010, the number of degrees and certificates awarded increased by 33%. The majority of the growth was among certificates awarded which increased from 27 in 2008-09 to 78 in 2009-10. Associate in Science degrees awarded slightly increased between the 2008-09 and 2009-10 academic years while AA degrees remained about the same.

TRANSFER DESTINATIONS

There are a small number of students who have transferred to a 4-year university in the last four years. No students were on record with the Department of Education as transferring to a UC institution in 2008-09 and in 2009-10. For the Cal State system, the top transfer school is Dominguez Hills with 44 students.
