Introduction

The ECC Annual Fact Book is a reference source containing trend data about students, student outcomes, and instructional programs and services. The data and analysis in the fact book provide background information to facilitate policy analysis and decision making. It should be a useful tool in college and departmental planning, grant preparation, and in the accreditation process. It is our hope that the information provided is used to objectively evaluate programs and practices as well as visualize the trends that affect El Camino College's current and future operations.

Demographic and enrollment data on ECC students was provided by the Chancellor's Office. Some of the data in the Special Programs section was extracted from the college's student database. In addition, data from the National Student Clearinghouse was used to provide transfer destination information.

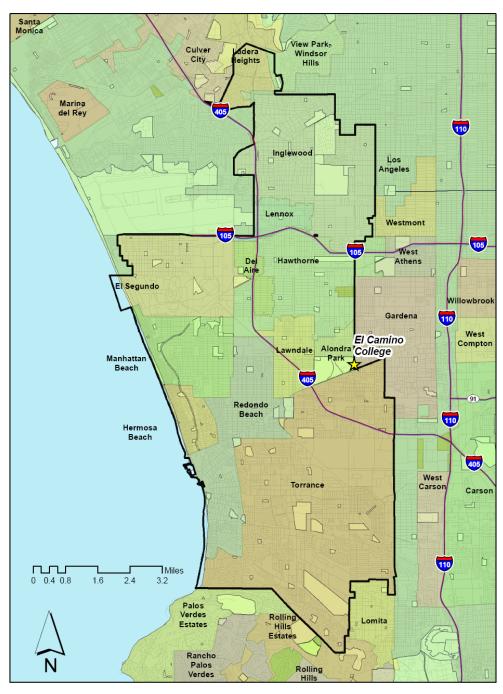

The Fact Book was composed and assembled by Carolyn Pineda. Special acknowledgement goes to Dwight Ueda, El Camino College Photographer, for providing the photographs used in this publication and Theresa Clifford, First Year Experience Secretary, for creating the cover page.

Please send any comments or feedback to the Office of Institutional Research.

SECTION 1 – EL CAMINO COLLEGE SERVICE AREA

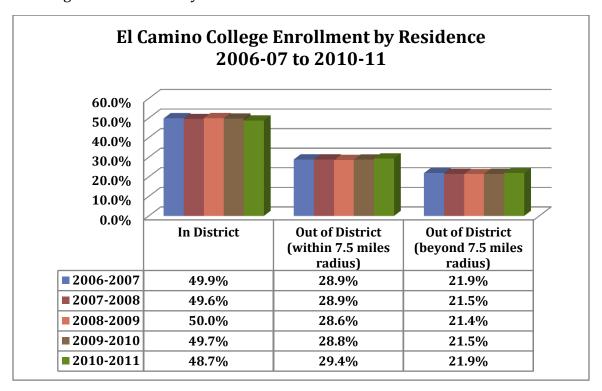

El Camino Community College District

ENROLLMENT BY RESIDENCE

On average, approximately half of students enrolled at El Camino College lived within the El Camino Community College District. Nearly 29% of students reside within 7.5 miles of the college while 22% live beyond a 7.5 mile radius of El Camino College. Enrollment patterns by residency have remained stable and relatively unchanged in the last five years.

ENROLLMENT BY ZIP CODE (7.5 MILE RADIUS)

In the 2010-2011 academic year, 78% of the student body lived within a 7.5 mile radius from the college. Of these students, 49% lived within the El Camino Community College District while 29% are from outside the district. Twenty-two percent of students enrolled in 2010-2011 lived beyond the 7.5 miles radius. Starred zip codes are located within the district.

SECTION 2 – STUDENT AND ENROLLMENT TRENDS

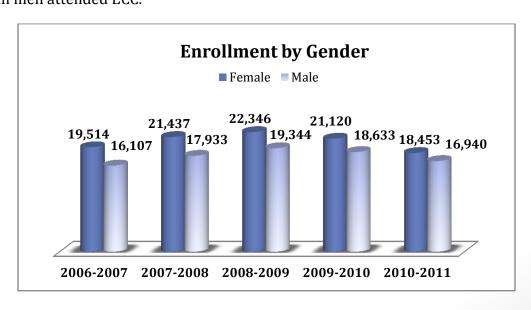

TOTAL ENROLLMENT

From 2006 to 2008, El Camino College experienced a steady increase in unduplicated student headcount that averaged 8% per year. There was a 10% increase in enrollment from the 2006-2007 to 2007-2008 academic years and a 6% increase from 2007-2008 to 2008-2009. In 2010-2011, there was an 11% decrease in enrollment. Enrollment is expected to stabilize in the coming years.

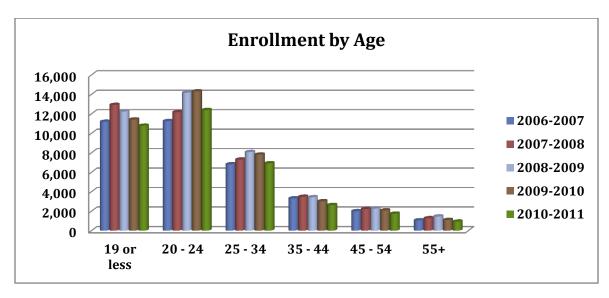

ENROLLMENT BY GENDER

Overall, about 16% more women than men have attended ECC in the last 5 years. The greatest difference was found in 2004-05 when 24% more women than men attended ECC. The gender gap narrowed further in 2010-11 when 9% more women than men attended ECC.

ENROLLMENT BY AGE

In the last 5 years, over 60% of enrolled students are between the ages of 18 to 24. Working adults ages 25-44 comprise 27% of enrolled student while 8% of students are ages 45 and older. From 2007-2008 to 2008-2009, there was a 17% increase in students ages 20-24. Growth among this age group stablized in 2009-2010. Also, there was a 6% decline in enrollment among students ages 19 or younger in 2009-2010.

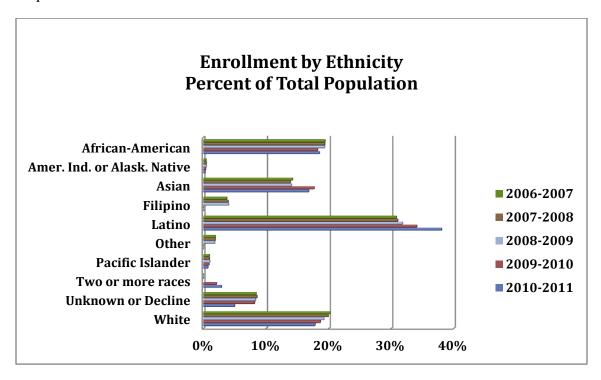

Age	2006-2007	2007-2008	2008-2009	2009-2010	2010-2011

ENROLLMENT BY ETHNICITY

Latinos represent the largest ethnic group on campus comprising 38% of the student population, an 8-point rise in 5 years. There was a 4-point rise in Latino students in 2010-2011. This may be a reflection of the changes in ethnic coding that the California Community Colleges Chancellor's Office adopted in Fall 2009. In 2010-2011, 18% of students were white and 19% were African-American. El Camino College also had a significant Asian population of 17%, which now includes Filipinos.

Ethnic Group	2006-2007	2007-2008	2008-2009	2009-2010	2010-2011
African-American	20.2%	19.9%	19.3%	18.2%	18.5%

^{*}Filipino included in Asian count

^{**}As of Fall 2009, "Other" no longer reported

^{***}New ethnic category as of Fall 2009

ENROLLMENT BY DAY AND EVENING

Approximately 75% of students enroll in at least one daytime course while 18% are exclusively in evening courses. In the last year, daytime enrollments have decreased by 5% while evening enrollments have decreased by 17%. These declines are mostly like the result in a reduction of sections offered in Fall 2010.

 $[\]ensuremath{^{*}}$ Irregular meeting times, including distance education.

ENROLLMENT BY HIGH SCHOOL

The majority of enrolled students come from local high schools throughout the South Bay area. The top five high schools include three of the Torrance area high schools (North High, West High, and Torrance High), Leuzinger High and Redondo High. Due to reduction in sections offered during the 2010-11 academic year, enrollments from all local high schools decreased when compared to the previous year.

SECTION 3 - SPECIAL PROGRAMS

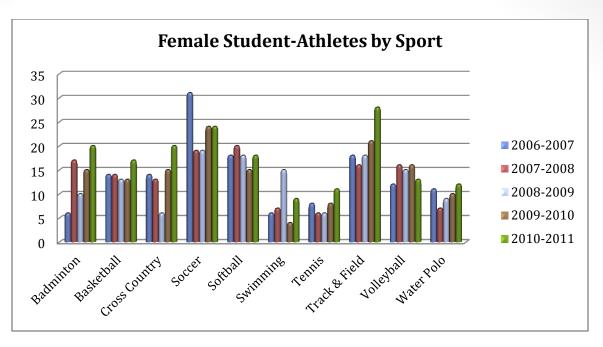

El Camino College Women's Soccer game vs. Long Beach City College

ATHLETICS

El Camino College offers a variety of intercollegiate sports teams. Approximately 1% of the student population participates in intercollegiate sports. The largest male sport is football, with an average of 97 players per year. Soccer is the largest female sport with an average of 23 players per year. The number of males participating in sports teams remained unchanged for the 2010-11 academic year when compared to the previous year. There was a slight increase in the number of females participating in sports teams. In 2009-10, there was a total 141 female student-athletes while in 2010-11 it went up to 172.

CALWORKS

CalWORKs is the community portion of the California Work Opportunity and Responsibility to Kids Act. CalWORKs funds assist single parents who are receiving Temporary Assistance for Needy Families (TANF), and those in transitioning off of welfare. It helps students achieve long-term self-sufficiency through coordinated student services. Approximately 1% of the student population participates in CalWORKs. In the last year, the number of CalWORKs participants has increased by 3%. The increase in participants in 2008-09 is likely due to increased reporting requirements along with dramatically scaled up outreach efforts. In addition, CalWORKs teamed up with the Business Division to create a business-focused cohort of students. Beginning in 2009-10, the number of CalWORKs participants has remained stable.

DISABLED STUDENT PROGRAM AND SERVICES (DSP&S)

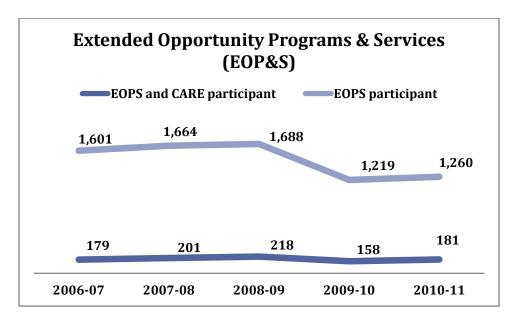

In 1972 El Camino College established a special program to assist students with disabilities in their pursuit of a post-secondary education. The purpose of this program is to assist disabled students to perform on an equal basis with non-disabled students in an integrated campus setting. About 4% of ECC students have a registered disability. The most common disability is mobility impairment followed by learning disablities. The number of learning disabled students has decreased in the last three years while the "Other" disability category has increased. This is due to changes in practices and consensus in the state of how to categorize certain disabilities.

Primary Disability	2006-07	2007-08	2008-09	2009-10	2010-11
Acquired Brain Injury	88	82	108	118	128

Visually Impaired	50	49	44	54	56
Total	1372	1417	1559	1696	1855

EXTENDED OPPORTUNITY PROGRAM AND SERVICES (EOP&S)

Extended Opportunity Program and Services (EOP&S) is designed to assist low income and educationally disadvantaged students achieve their educational goals at El Camino College. It provides eligible students with support services in the areas of counseling, peer support, financial assistance, transferring and tutorial services. Approximately 3% of the ECC students are in EOP&S or CARE, a single parent support program for EOP&S. In 2009-10, there was a 28% decrease in the number of students who participated in EOP&S or CARE. This decline is due to reduced state funding the program received in the 2009-10 academic year. In 2010-11, the number of students who participated in EOP&S or CARE increased by 5%.

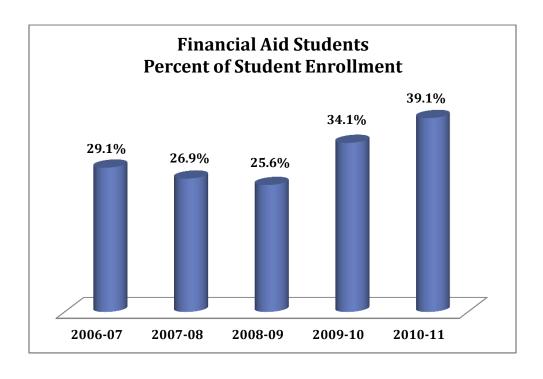

FINANCIAL AID

Thirty-nine percent of El Camino College students received financial aid in 2010-11, five percentage-points higher than the previous year. Forty-two percent of students who enrolled in Fall 2010 received financial aid. The largest Financial Aid program is the Board of Governor's Fee Waiver (BOGW). In 2010-11, there was a 9% increase in BOG Fee Waiver recipients. The second largest program is the Federal Pell Grant. The total number of Pell Grant recipients grew from 5,695 in 2009-10 to 6,160 in 2010-11, an 8% increase.

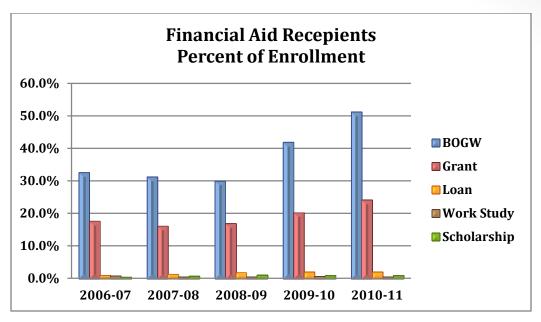

The next largest program is the campus-based-Federal Work Study (FWS) and Federal Supplemental Educational Opportunity Grant (SEOG). In 2010-11, the number of FWS recipients decreased by 17% while SEOG recipients increased by 20%.

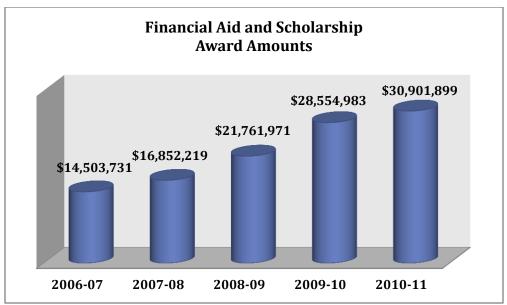

There were no Stafford Loan recipients reported and an increase in the number of Federal Direct Student Loan recipients. As of 2010-11, Stafford Loans are part of the Direct Loan program and now fall under the category of Federal Direct Student Loans.

INTERNATIONAL STUDENTS

El Camino College's international student program enrolls students originating from more than 65 different countries in Latin America, Europe, Africa, and the Pacific Rim. The number of international students gradually increased from 801 in 2006-07 to 896 in 2009-10. In 2010-11, the number of international students dipped slightly to 826.

VETERANS

El Camino College is an approved institution of higher learning for veterans. Assistance is provided to veterans in planning educational programs and maintaining compliance with Veterans administration regulations. In the last five years there has been a gradual increase in the number of veterans enrolled at ECC. There were 479 veterans enrolled in 2006-07 and that has increased to 612 in 2010-11.

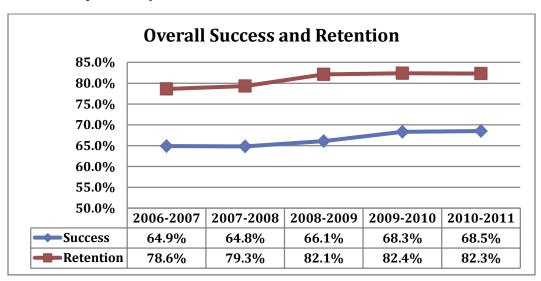

SECTION 4 - SUCCESS AND RETENTION

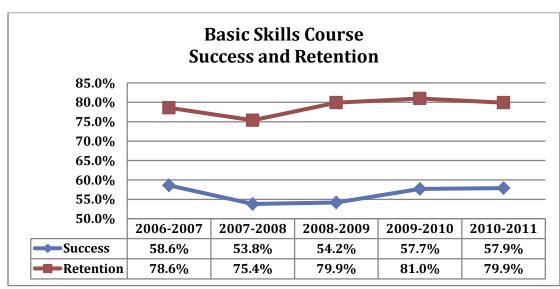

OVERALL SUCCESS AND RETENTION

Looking at all courses across the curriculum, there is an average success rate of 67% and retention rate of 81%. In 2010-11, success and retention rates remained the same from the previous year.

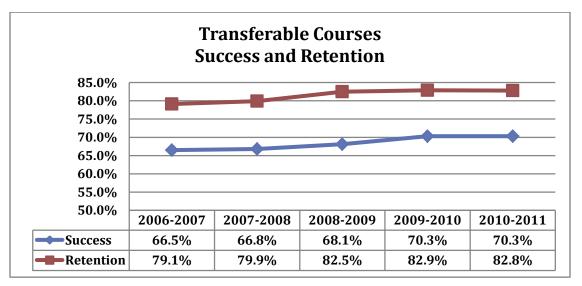

BASIC SKILLS SUCCESS AND RETENTION

Students who take basic skills courses have an average success rate 56% and retention rate of 79%. In the last year, the success and retention rates remained stable at 58% and 80%, respectively. The 2010-11 basic skills success rate is 11 percentage points below the overall success rate. On the other hand, the basic skills retention rate is 1 point below the overall retention rate.

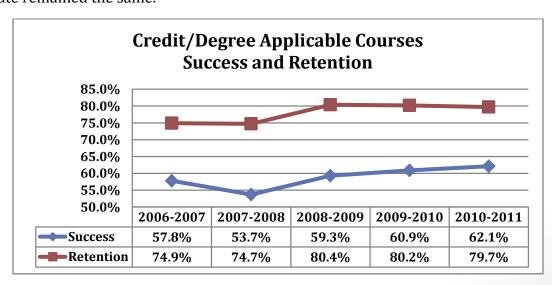

TRANSFERABLE SUCCESS AND RETENTION

The success rate for transfer level courses averages 68%, slightly higher than the overall and basic skills success rates. The average retention rate for transfer level courses is about 81%, also slightly higher than the overall and basic skills rates. In 2010-11, the retention and success rates remained unchanged from the previous year (83% and 70%, respectively).

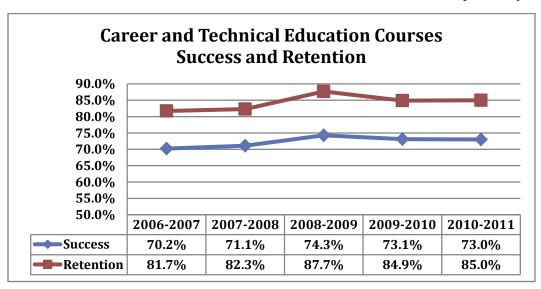

CREDIT/DEGREE SUCCESS AND RETENTION

The average success and retention rates for non-basic skills, non-transfer courses are lower in comparison to the three previous course types. Over the last five years, credit/degree applicable courses average a 58% success rate and 78% retention rate. In the 2010-11, the success rate increase slightly to 62% while the retention rate remained the same.

CAREER AND TECHNICAL EDUCATION SUCCESS AND RETENTION

The average success and retention rates for vocational courses are higher in comparison to the four previous course types. Over the last five years, career and technical education courses average a 72% success rate and 84% retention rate. In 2010-11, success and retention rates were stable at 73% and 85%, respectively.

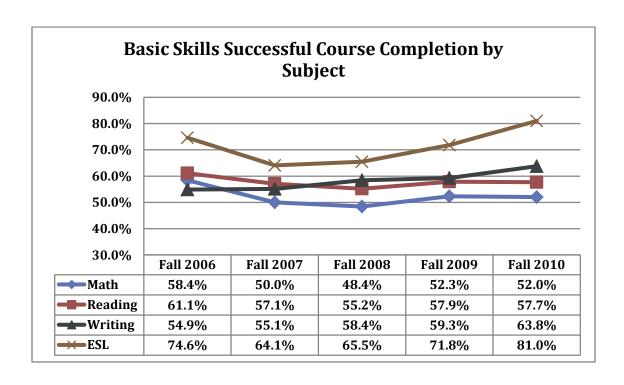

SECTION 5 - STUDENT OUTCOMES

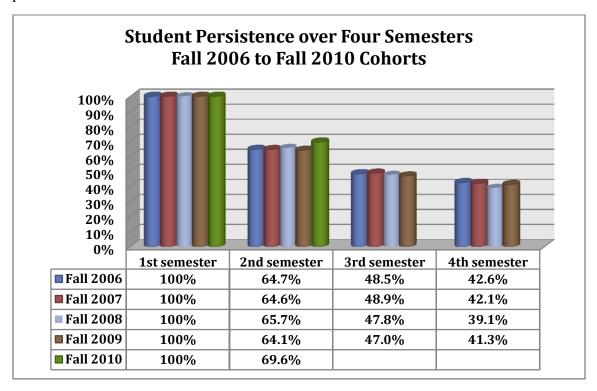

BASIC SKILLS SUCCESSFUL COURSE COMPLETION

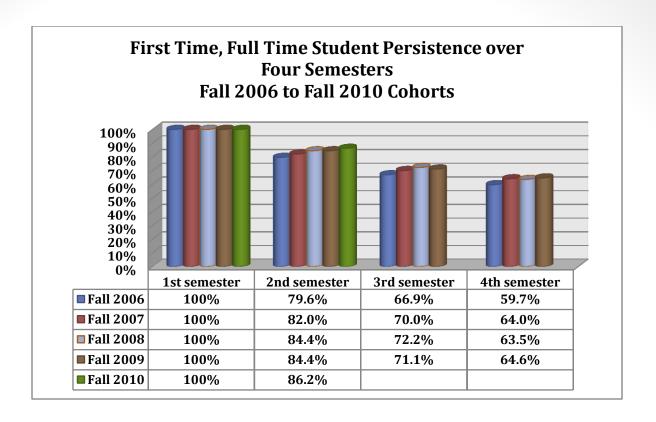

Success rates for basic skills math, reading, and writing either increased or remained stable in the last year. Between Fall 2006 and Fall 2007, there was a 10 percentage point decline in the ESL success rate. However, between Fall 2009 and Fall 2010, ESL success rates increased 9 percentage points to 81%. The success rates for basic skills reading and math have remained consistent while there was a slight increase in writing success rates. In Fall 2009, the writing success rate was 59% and increased to 64% in Fall 2010.

PERSISTENCE RATES

Student persistence refers to the tracking of students over several terms. Persistence rates are based on five fall cohorts over four semesters, looking only at fall and spring enrollment. For the Fall 2010 cohorts, the 2^{nd} semester persistence rate is 6 percentage points higher than the previous cohort. The Fall 2010 first-time, full-time cohort 2^{nd} semester persistence rate is 2 percentage points higher than last year's cohort. Overall, the first-time, full-time cohorts have a higher persistence rate than overall fall cohorts.

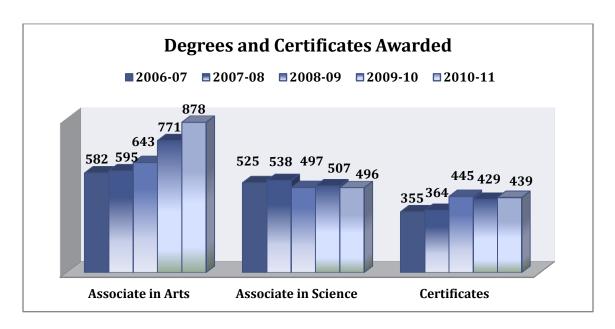

DEGREES AWARDED

El Camino College has awarded a total of 8,064 degrees and certificates in the last five years. From 2006 to 2010, there has been a moderate increase in the number of degrees awarded that averages 4% per year. There was a 6% increase in degrees awarded from the 2009-2010 to 2010-2011 academic years.

Starting in 2006, the gap between the number of Associate of Arts and Associate of Science degrees awarded has increased. In 2006 there were 57 more AA degrees than AS degrees awarded. But in 2010-11, there were over 380 more AA degrees than AS degrees awarded. In addition, in the last year the number of AA degrees increased by 14% while AS degrees decreased by 2%. For certificates, there was a 2% increase in the number awarded from the 2009-2010 to 2010-2011 academic years.

Degrees and Certificates Awarded 2006-2010

Degrees and Certificates	2006-07	2007-08	2008-09	2009-10	2010-11
Associate in Arts	582	595	643	771	878
Associate in Science	525	538	497	507	496
Certificates	355	364	445	429	439
Total Degrees	1462	1497	1585	1707	1813

TRANSFER DESTINATIONS

Following a 27% increase in UC transfers in 2009-10, transfers decreased by 5% this last year. The largest UC transfer destination for ECC students is UCLA which decreased by 19% in the last year. For the Cal State system, there was a 35% increase in transfers in 2010-11. Transfers to Cal State Long Beach increased from 180 in 2009-10 to 343 in 2010-11. This increase in transfers can be attributed to federal funding that was received by the UC and Cal State university systems that allowed them to enroll more students.
