**Enrollment by District ZIP Code and Region
El Camino College
Fall 2004 to Fall 2006**

This report analyzes the enrollment patterns by El Camino Community College District (ECCCD) ZIP code for the past three years. ZIP codes within district boundaries have been grouped according to their location relative to the campus: Central (close), North, South and West. ZIP codes outside of the district were excluded from this study.

Since Fall 2004, *ZIP codes north of the district declined by nearly 2 percentage points*, while *southern locations increased by 1.7 points*. Enrollment from Central and West ZIP codes changed little over the past 3 years.

Within-district enrollment as a proportion of total enrollment declined from 2004 to 2005, leveling off in 2006. Due to the recent decline, a larger share of El Camino College students now commutes from *outside* ECCCD boundaries compared to Fall 2004.
