family problems

I have 3 children and then I was getting sick plus I had math, English and History as well it was too many courses then my little one started First Grade she got homework she need help with and got a son with Down Syndrome which always requires me.

Due to ongoing health related issues with my back- I found the need to withdraw in order to take care of myself and focus on my recovery.

Homelessness as a single mother of four.

Didn't have any help with learning how to navigate on the laptop and the class instructions where hard to find, the Teacher put information in different places

I got into the class in el camino so I no longer needed to attend compton at that time

The course seemed to be hard. It was too much of a work load for me.

It required more time and requirements than expected. I have a job as a teacher have a background check , vaccines and a health check out done 3 months before the beginning of the class. I thought that I could use them, but I need to do it again.

I was going thru homelessness and I couldn't. Attend my classes

I was undergoing homelessness.

I withdrew from this course because it was a bit to difficult for me.

I didn't feel like I belonged and I kinda felt uncomfortable going to college

I never withdrew I was just facing alot of horrific situations that caused me to not make it to my classes

---

A family member passed away and I told my professor that I needed to take 2 days off. She dismissed my reasoning and said I was required to be in class.

---

I tested positive for COVID 19 at the beginning of the session, I wasn't able to continue due to medical issues related to COVID.

---

It was very disorganized as the first professor only showed up for one class and a second professor came in stating that she did not know who would take over the class.

---

You all need to reach out to theses professors who are quick and persistent in shooting emails as to announcements: assignment notices, deadlines, missed work.... and have them FOCUS on delivering relevant and timely need instruction material.

---

The professor rushed things and didn't reply to emails when needed help.

---

Large teacher dropped me from the class because of my lack of attendance. But I was busy with working and personal issues

---

The professors teaching methods was unfortunately a technique that I could not learn from, and my grandmother is passing and out into hospice, so I made sure to be at her side.

---

Had personal health issues which did not allow me to stay on track with class work

---

When I signed up for this class I thought it was going to be an online class with meeting times. I have not been in school since 2015 and I was never to type to learn on my own. It was very difficult for me to be able to work and learn without help

---

40 hr + work week was too much for this additional CIS class

---

I did not agree with the teaching method, the classes were informal and the teacher did as she felt rather than what was correct. I will not take this teacher again, but she covers most Child development courses in CCC. That is not good.

---

Because I need a tutor

---

This class was very difficult. It was hard to memorize 50 words+ No matter how hard I studied it just wasn't enough.

---

I had to take care of my. Mom she has diabetes and she lost her vision

---

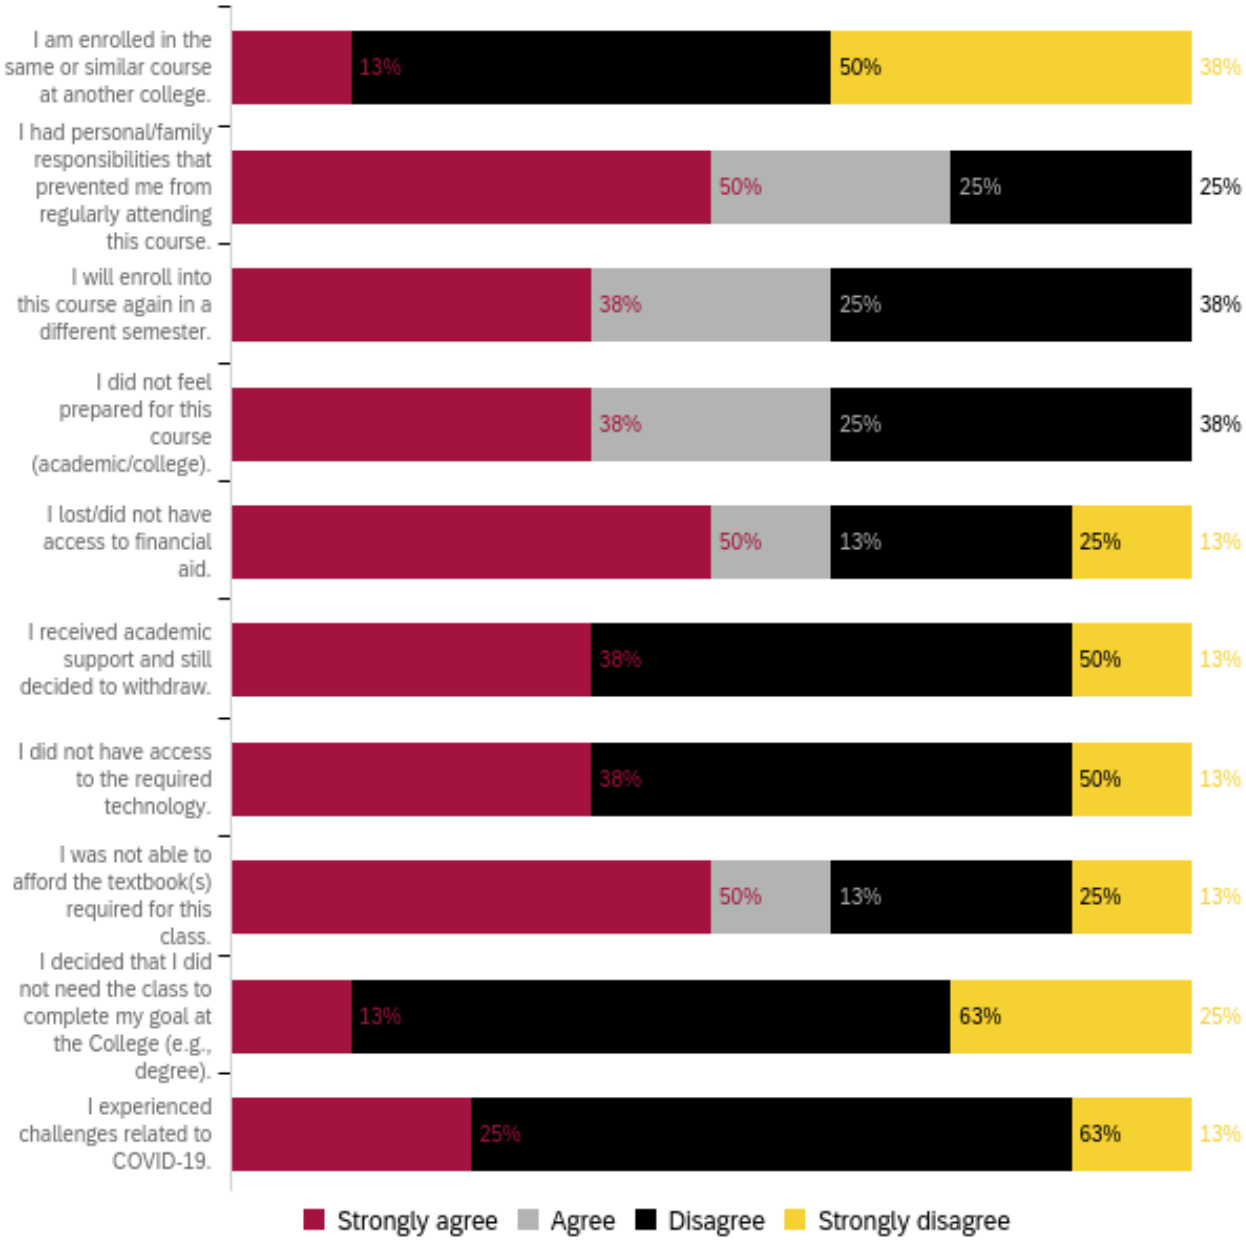

The professor stated she did not want to hear about not receiving financial aid for the material we should be prepared no exceptions. My financial aid did not come until the middle of the semester which I was failing so I withdrew then my aid came.

---

I was pregnant and had my child around the time of this course. I unfortunately had my hands full with my newborn.

Due to ongoing health related issues, I made the decision to withdraw in order to focus on my recovery. I was not feeling well during that time.

---

I just felt like I didn't belong and felt uncomfortable there

---

This teacher was handing out zeros for work with good effort and giving little time after class to turn in assignments, which she did not allow us to begin at the start of class. She graded other students who re-wrote what I wrote better than me !!!!

---

Financial hardship when financial aid was not deposited until the middle of the semester.

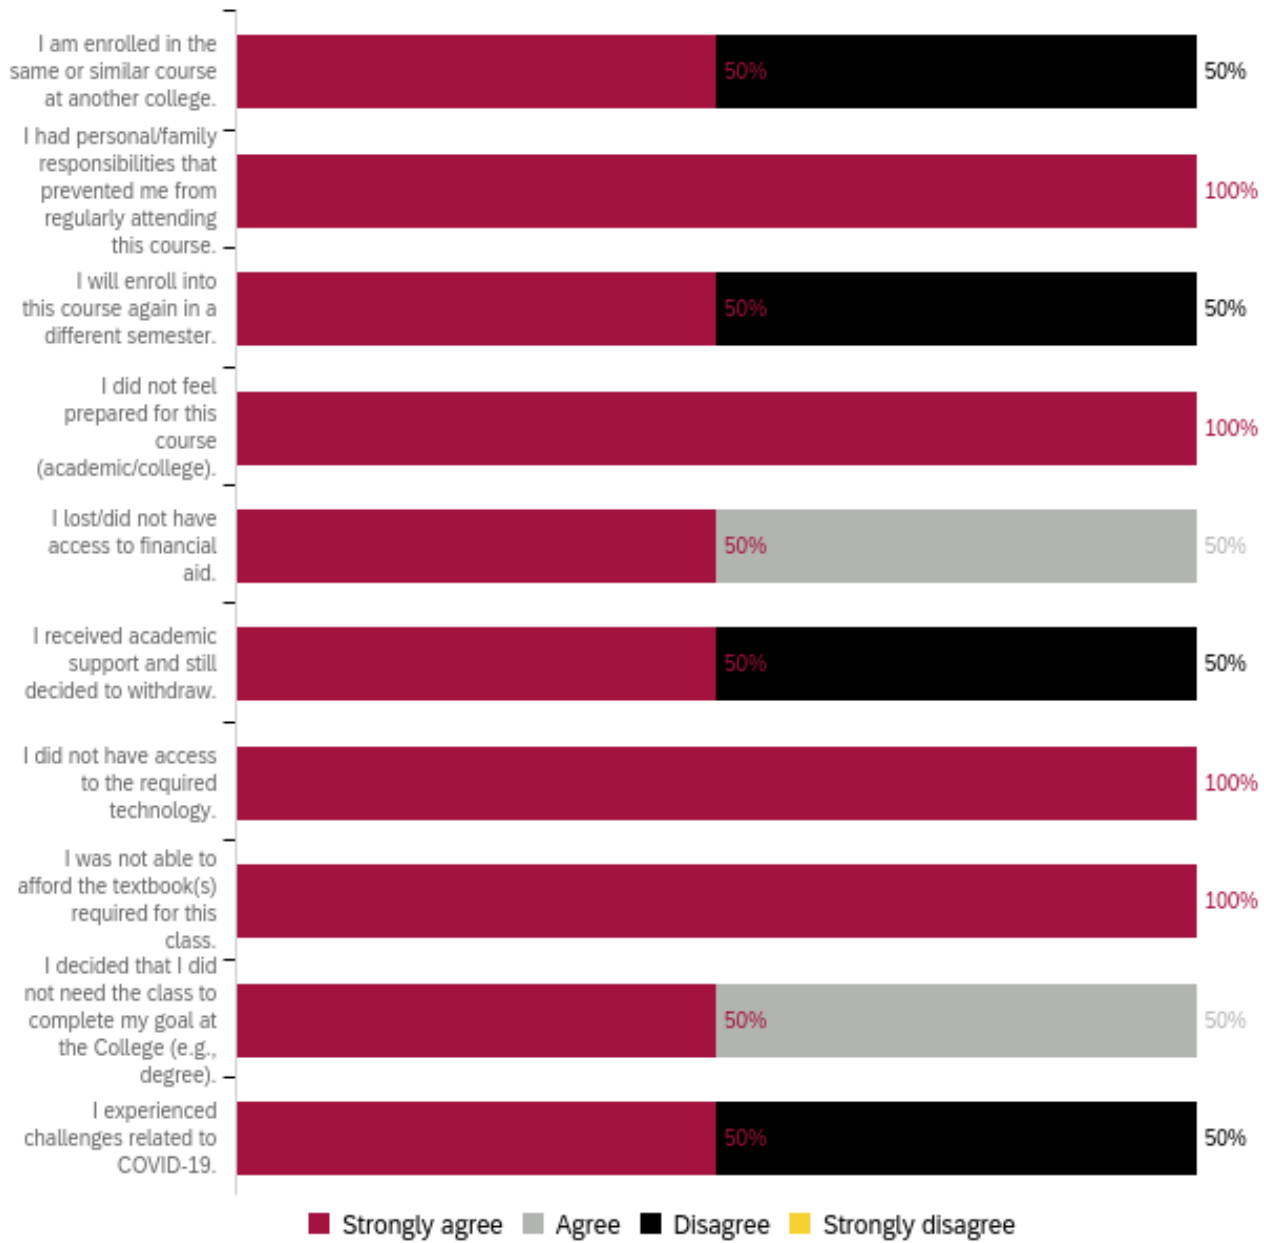

A word cloud centered around the word "time". The word "time" is the largest and most prominent, rendered in a dark red color. Surrounding it are numerous other words in various sizes and orientations, all in a light gray color. The words include: "better", "decision", "financial", "focus", "aid", "recovery", "teacher", "felt", "grade", "order", "withdraw", "hand", "assignment", "ongoing", "health", "issue", "good", "turn", "zero", "work", "made", "class", "related", "xxxx", "student", "didn't", "middle", "uncomfortable", "feeling", "semester", "give", "begin", "belong", "hardship", "effort", and "deposit". The words are arranged in a roughly circular pattern around the central "time".

I had to withdraw from all my classes due to financial aid not being received before my classes started. I withdrew from my classes in the middle of the semester then financial aid was deposited which caused a hardship to continue the semester.
