---

Campus Community,

As we begin the week, I wanted to provide an update on the Compton College Student Housing Proposal. In the [President/CEO Message – June 9, 2022](#), I included an update on the Compton College Student Housing Proposal. The Compton College Student Housing Proposal was for constructing a 250-bed facility. **Today, June 26, 2022**, California State Lawmakers, including Governor Gavin Newsom, reached a deal on the 2022-2023 California State Budget. Included in [Assembly Bill – 183 Higher Education Trailer Bill](#) is **\$80,389,000** for student housing at Compton College.

Thank you to everyone involved with the Compton College Student Housing Proposal; achieving funding for the first phase of student housing is a significant accomplishment in the history of Compton College and Compton Community College District.

Sincerely,

Keith Curry, Ed.D.
