Campus Community,

Every Monday and Thursday, I review Compton College's enrollment data compared to our Five-Year FTES Projections, and I am highly encouraged by the summer and fall 2023 numbers. Having all Student Support Services housed in one location has helped, and the continued focus on recruitment and retention efforts has contributed to the positive enrollment numbers. ***But the work can't stop***. We need to continue improving the enrollment processes, including how we collect inquiries and transition those individuals into successful registrations. The new 2023-2024 Outreach and Recruitment Plan will focus on new students, and retention activities will concentrate on current students and their term-to-term persistence.

Yesterday, I had the opportunity to attend the Compton College Summer Transfer Institute Orientation. We have a goal of 25 Compton College students taking an online Ethnic Studies 101 course, ***June 20 through July 27, 2023***, and then participating in the Summer Residential Transfer Program at UC Irvine ***July 7-16, 2023***. Thank you to the Transfer and Career Center for coordinating this program and Nathan Lopez for teaching the Ethnic Studies 101 course this summer. This is a beautiful opportunity for our students. In the next few months, we will have more conversations on campus regarding student transfer programs and explore creative ways to support our students through their transfer journeys.
