Open Enrollment

Reference: Board Policy 5052 - Open Enrollment; Title 5, California Code of Regulations, Sections 51006, 58106 and 55200

Every course, course section, or class, unless specifically exempted by statute or regulation, shall be fully open to enrollment and participation by any person who has been admitted to Compton College and who meets such prerequisites as may be established pursuant to regulations established in Title 5, Section 55200 or local procedures developed for implementing SB 288, unless specifically exempted by statute or regulations established in Title 5, Section 58106.

Unit Limitations

The student's program of studies will vary according to individual need and objectives. The maximum full-time student program for a semester is 18 units without a physical education class and 19 units with a physical education class. The maximum program of study for the six-week summer session is 8 units or 9 units for the eight-week session if at least one unit is physical education. The maximum program of study for the winter session is 7 units. The minimum full-time student program is 12 units per semester. A student wishing to take more than the maximum units may file an overload petition through the Admissions & Records Office. Students must have completed at least 15 transferable units in one semester at Compton College with a 2.75 grade point average and an overall grade point average of 2.5 or higher to be eligible for an overload.

In addition to scheduled class hours, students should include in their weekly

schedule the time necessary to study and prepare for classes. Each student is expected to spend two hours per week in study and preparation for each class hour for lecture courses. In the Course Catalog, the minimum number of outside hours is noted for each class. Students who work in business or industry should reduce their total study programs in proportion to the demands of their employment and personal activities. If employment requires 40 hours or more per week, students would limit their study program to seven units or less each semester.

Adds and Drops

It is the student's responsibility to process an official withdrawal from class. Failure to do so may result in a letter grade of A through F. A student who fails to properly register or add a class will NOT receive credit for that class. Adding after the deadline is prohibited.

If a student drops after the refund deadline, fees for the classes are forfeited. Any class subsequently added will require additional fees.

If a student drops a class after the refund deadline in order to add the same class at a different time/date/instructor, the student must request a lateral transfer or level transfer from both instructors. All transfers are processed through the Admissions and Records Office.

Student Records

Congress has provided in the "Family Education Rights and Privacy Act" (FERPA) that students have certain rights of access to their education records. A copy of the Act is located in the Library. Please contact the Admissions and Records Office for any information regarding your rights under the Act.

High School Students

By law, Compton College may restrict K-12 enrollment based on any of the following: age, grade, academic preparation, seat availability or registration priority. District policy restricts concurrent enrollment to students who have completed the 10th grade.

Compton College will grant college credit for completed coursework. Students should consult their school counselor and/or school district policy on enrolling in college classes to earn high school credits or dual credit.

Students - When you enroll in classes at Compton College, you are considered

a college student and are expected to act accordingly. Please familiarize yourself with Compton College policies, procedures, the college calendar, and your rights as a student by reading the class schedule and purchasing a college catalog from the Bookstore. The schedule and the catalog are available for free online.

Eleventh and 12th grade students must submit an up-to-date application for admissions online, have a fully completed and signed concurrent enrollment form on file in admissions, and have turned in any supporting documentation to the Admissions Office prior to the start of a semester or term. Failure to meet the admissions deadline will preclude the student from registering in any classes for that term. Late admissions and late registration will not be considered for concurrently enrolled high school students.

Parents - when your child enrolls in classes at Compton College, you lose some rights afforded you by the K-12 system.

As per FERPA (Family Educational Rights and Privacy Act) any business you conduct on behalf of your college student must be with the student's written consent. You, the parent, will need a note from your child to access private educational records or to act on his or her behalf.

Applying to Compton College does not guarantee a seat in a class. Registration priority is given to continuing students first, followed by new and returning students, and then concurrently enrolled high school students. These students must go through the application process each semester or term that they are enrolled as a concurrently enrolled student.

Equivalent Courses

Courses completed at other colleges and universities may be used to meet a prerequisite. Some high school courses, as stated in the catalog, may also be used to meet a prerequisite.

Students who have completed equivalent courses at another college or in high school must have copies of necessary transcripts. Do not delay. Order transcripts and clear prerequisites prior to registration. Clearance for an equivalent course may be obtained in the Counseling Department or the Academic Affairs Office (C-32).

Student ID Card

All students are encouraged to obtain a free Compton College identification card. These cards are available in the Student Life Office, R-61 after June 7, 2019. These

cards serve as student identification, and are required for Library services, campus activities, computer labs, and to verify attendance in certain classes/workshops.

Transcripts

Students who plan to attend under veterans or Social Security benefits; receive academic advisement to become matriculated; or need to have coursework at other colleges reviewed for prerequisite clearance, must request college transcripts from all schools attended be sent to the Compton College Admissions and Records Office.

Students who plan to graduate from Compton College with a degree or certificate and wish to have coursework taken at other colleges considered for graduation, must request official transcripts to be mailed from the other colleges to Compton College. Hand-carried transcripts from the student or any other party will not be accepted.

Ordering transcripts is easy. Go online 24/7 to www.compton.edu/student-services/admissionandrecords/transcripts.aspx and follow the instructions.

The first two Compton College transcripts are free. Additional transcripts incur a fee as determined by college policy and payable at the time of the transcript request. Transcripts are processed on a first-in, first-out basis.
