Although students can receive most services at either campus (El Camino College or Compton College), a student's location code determines at what location a student can receive services such as Financial Aid, EOPS, CARE and CalWORKs. A location code is based on the application submitted online via www.opencccapply.net. Once Financial Aid has been awarded, your location code cannot be changed. Therefore, students may only change their location code 1) before receiving financial aid for the academic year (fall to summer) or 2) before the start of the fall semester. Students must receive approval from the Financial Aid Office before submitting a location code change request form to the Admissions & Records Office.
