Chief Executive Officer

THOMAS E. HENRY
Special Trustee

The proposed 2014-2015 Compton Community College District Final Budget is submitted for your review and approval. The Compton Community College District Budget Book includes the 2014-2015 budgets for all funds and other important information.

The Final Budget is based upon the information currently available from the California Community Colleges Chancellor's Office. The El Camino College Compton Center goal is to generate 6,751 Full Time Equivalent Students (FTES) for 2014-2015 by offering 1,600 course sections. This goal includes 6,251 FTES for 2014-2015 and 500 FTES for 2013-2014.

The Final Budget includes \$2.067 million in deficit budgeting, due to one-time expenses in the 2014-2015 year. The one-time expenses include the campus-wide new computer equipment upgrades, funding for Enrollment Management activities to assist with meeting our 2014-2015 FTES goals, and funding for campus-wide facilities improvements.

The Final Budget does maintain a reserve above the minimum 5% level as advised by the State.

The proposed Final Budget will be available for inspection beginning August 26, 2014. The Public Hearing and your adoption of the Final Budget is scheduled for Tuesday, September 9, 2014 at 6:00 p.m. in the Boardroom.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Keith Curry', is written over a light blue rectangular background.

Budget Summary

Balanced Budget

The budget is balanced utilizing revenues and fund balance to cover expenditures.

Integrated Planning and Budgeting

The District has used program review and/or strategic planning processes to determine their highest priority goals and objectives. This budget has been constructed to match District resources with those goals and objectives. It is important that the Compton Community College District and the Compton Community Educational Center maintain focus on student access, along with a fiscally responsible long-term vision. The following principles guided the Compton Community College District 2014-2015 Budget Planning Process:

1. Student learning and student success is a key to every recommendation and decision.
2. Programs and student support services will be of high quality and appropriately supported.
3. All efforts will be made to create and support revenue generating opportunities.
4. Creating a dynamic, flexible organization that can easily adapt as future changes to our State's economy unfold.

State Budget Update ¹

The California Community Colleges are publicly supported local educational agencies that provide educational, vocational, and transfer programs to approximately 2.1 million students. The Community College system is the largest system of higher education in the world, with 72 districts, 112 campuses, and 69 educational centers. By providing education, training, and services, the Community Colleges contribute to continuous workforce improvement. The Community Colleges also provide remedial instruction for hundreds of thousands of adults across the state through basic skills courses and adult non-credit instruction.

Significant Adjustments:

- *Implementing Statewide Performance Strategies* — The Budget provides \$1.1 million non-Proposition 98 General Fund and nine positions for the Chancellor's Office to develop leading indicators of student success and to monitor districts' performance. Further, the Budget provides \$2.5 million Proposition 98 General Fund to provide local technical assistance to support implementation of effective practices across all districts, with a focus on underperforming districts.

- *Investing in Student Success* — The Budget provides \$170 million Proposition 98 General Fund to improve and expand student success programs and to strengthen efforts to assist underrepresented students. This includes \$100 million to increase orientation, assessment, placement, counseling, and other education planning services for all matriculated students. It also targets \$70 million to close gaps in access and achievement in underrepresented student groups, as identified in local Student Equity Plans. This funding will allow colleges to better coordinate delivery of existing categorical programs.
- *Apportionments* — The Budget includes an increase of \$140.4 million Proposition 98 General Fund for growth in general-purpose apportionments, which represents a 2.75-percent increase in enrollment. The Budget directs the Board of Governors to adopt a growth formula beginning in 2015-16 that gives first priority to district identified as having the greatest unmet need in adequately serving their community’s higher educational needs. The Budget also includes \$47.3 million Proposition 98 General Fund for a statutory cost of living adjustment of 0.85 percent.

Career Technical Education — The Budget includes \$50 million Proposition 98 General Fund to improve career technical education:

- A one-time increase of \$50 million Proposition 98 General Fund to support the existing Economic and Workforce Development program at the CCC Chancellor’s Office. These funds provide resources for community colleges to develop, enhance, and expand career technical education programs that build upon existing regional capacity to better meet regional labor market demands.

Technology Infrastructure — The Budget includes \$6 million Proposition 98 General Fund, of which \$1.4 million is one-time and \$4.6 million is ongoing, to upgrade bandwidth and replace technology equipment at each community college. These investments support student success technology initiatives started in 2013-14, including electronic transcripts, electronic planning, incoming student evaluation, and the online education initiative.

Disabled Student Programs and Services — The Budget includes \$30 million Proposition 98 General Fund to provide support services to students with disabilities.

Eliminating Apportionment Deferrals — The Budget includes \$498 million Proposition 98 General Fund to buy down deferrals. Further, the Budget includes a trigger mechanism that will allow any additional funding resources attributable to the 2013-14 and 2014-15 fiscal years subsequent to the enactment of the Budget to be appropriated for the purpose of retiring the remaining \$94 million deferral balance.

Mandates — The Budget includes \$49.5 million in one-time Proposition 98 General Fund to reimburse community colleges for the costs of state-mandated programs. These funds will make a significant down payment on outstanding mandate debt.

Financial Stability for Apportionments — The Budget includes an increase of \$40.5 million in 2013-14 and \$37.8 million in 2014-15 in Proposition 98 General Fund by shifting a portion of revenues from former redevelopment agencies that are scheduled to be received in the final months of the fiscal year to the following fiscal year. Proposition 98 General Fund will be used to backfill the difference between estimated total fiscal year redevelopment agency revenues and the amount the CCCs receive through April 15. This change will allow districts to have more certainty when preparing their fiscal plans.

Investing in Deferred Maintenance and Instructional Equipment — The Budget includes a one-time increase of \$148 million Proposition 98 General Fund that colleges may use for deferred maintenance or instructional equipment purchases. These resources will allow districts to protect investments previously made in facilities, and improve students' experience by replenishing and investing in new instructional equipment.

APPENDIX

Compton Community College District Base Revenue

Final Budget – FY2015

On the basis of each district's "Full Time Equivalent Students" (FTES), the State of California "apportions" or distributes part of the State School Fund to the 72 community college districts in the State. This apportionment, designated as the district's total available general revenue is currently received from four sources:

- Enrollment Fees
- Property Tax
- State General Apportionment
- Education Protection Account (EPA)

The amount of enrollment fees, property taxes, and education protection account estimated to be received by the District is subtracted from the total apportionment calculated by the State. The balance remaining is the amount of state general apportionment that the district will receive during the fiscal year. If enrollment fees, property taxes, or education protection account received are higher than originally estimated, the State reduces that district's apportionment correspondingly. It is important to note that the funding provided from the Education Protection Account (EPA) is only temporary. The funding of EPA is comprised of sales tax increases which are set to expire at the end of 2016 and income tax increases set to expire at the end of 2018. At the end of the expiration terms of these temporary tax increases, the state would be obligated to fund districts the differences from the state general fund.

New legislation, SB 361, was introduced in 2006 that changed the funding formula for community college districts beginning with the 2006-07 year. The total allocation to each district is computed on the basis of three factors:

- Foundation Revenues (basic allocation);
- Credit FTES Revenues;
- Non-Credit FTES Revenues

Foundation revenue is a dollar amount allocated to districts based on the number and the size of colleges and centers for each district.

SB361 calculated a 90th percentile equalization credit FTES target rate of \$3,955, which was derived using 2005-06 base data. The target rate is increased each year by a statewide inflation adjustment factor (COLA). The 2013-2014 base funding rates were \$4,636.49 for Credit FTES and \$2,788.05 for Non-credit FTES. The 2014-2015 estimated COLA of 0.85% provided approved in the Governor's Budget increasing base funding rates to \$4,675.90 for Credit FTES and \$2,811.75 for Non-credit FTES.

The Base Revenue for 2013-2014 was computed based on 6,031 credit FTES and 29 non-credit FTES.

Full-Time Faculty Obligation

Assembly Bill 1725 (Statutes of 1988, Education Code Section 87482.6) and implementing regulations (California code of Regulations, Title 5, Sections 52015 and 53300, et seq.) established a goal for percentage of hours of credit instruction to be taught by full-time instructors at 75%. During the 1997 year, the Consultation Council proposed a revision to the regulations to include non-instructional faculty* as part of this goal. Regulations to incorporate this revision were adopted by the board of Governors. If the obligation is not met, the apportionment will be reduced by the statewide average of faculty replacement cost for each position below the obligation number.

<u>Fall Semester</u>	<u>Obligation</u>	<u>Actual</u>	<u>%</u>	<u>Statewide Average of Faculty Replacement**</u>
2006	81.4	112.2	84.7%	\$60,289

GLOSSARY

Assessed value is either the appraised value of any newly built or purchased property or the value on March 1, 1975, of continuously owned property, plus an annual increase. This increased is tied to the California Consumer Price Index but may not exceed 2%.

AUGMENTATIONS - Augmentation requests should be based on needs assessment and/or program review. An augmentation is a one-time addition to the current year budget.

AUXILIARY OPERATIONS - Supportive services and/or specialized programs for the general benefit of the college. The governing board of a community college district may establish auxiliary organizations for the purpose of providing supportive services and specialized programs for the general benefit of its college. Education Code Section 72670 provides examples of entities that may be considered as auxiliary organizations.

AVERAGE DAILY ATTENDANCE (ADA) - The student workload unit formerly used as the basis for computation of State support for California Community Colleges. An ADA represents 525 class (contact) hours of student instruction/activity. The term ADA has been replaced by Full-Time Equivalent Student (FTES).

BASE FUNDING - Under current financing legislation, each district has a base amount of combined property taxes, enrollment fees, and apportionment which the State will fund during any fiscal year. This base is equivalent to the prior year's income if the district earned all the

FTES it was allowed under its "cap". When enrollment declines, the following year's base is reduced.

BASE REVENUE - The district's total prior year revenue from state general apportionments, local property tax revenue, and student enrollment fees, adjusted when applicable for projected deficits.

BASE YEAR - A year to which reference is made when projecting a current condition.

BLOCK GRANT - A fixed sum of money, not linked to enrollment/FTES measures.

BOGW - BOARD OF GOVERNORS Enrollment Fee Waiver – A waiver of enrollment fees available to California residents who apply through the Financial Aid Office and meet various qualification criteria.

The Board hires the chancellor of the California Community Colleges and makes policy decisions that affect all districts. The Board may be directed by the legislature to regulate certain matters and it may choose to regulate others.

BOARD OF TRUSTEES - The local governing board of each community college district. Its members are elected from the service area. The board hires the chief administrator of the district and directs the operations of the district. It makes policy decisions that are permitted or mandated at the local level.

BOND - A means of long-term debt financing. See General Obligation Bond.

BOOKSTORE FUND - The fund designated to receive the proceeds derived from the district's operation of a community college bookstore (Education Code Section 81676). All necessary expenses, including salaries, wages, and cost of capital improvements for the bookstore may be paid from generated revenue.

BUDGET - A plan of financial operation for a given period for a specified purpose consisting of an estimate of revenue and expenditures (ideally, an educational plan expressed in dollars).

BUDGET ACT - The legislative vehicle for the state's budget appropriations. The constitution requires that it be passed by a two-thirds vote of each house and sent to the governor by June 15 each year. The governor may reduce or delete, but not increase, individual items.

These indices of inflation are calculated regularly for the United States, California, some regions within California, and selected cities. The CPI is one of several measures of economic change.

FULL-TIME EQUIVALENT STUDENT (FTES) - An FTES is a student workload measure that represents 525 class (contact) hours of student instruction/activity in credit and non-credit courses. GENERAL FUND-UNRESTRICTED – The designation "Unrestricted" is used to account for resources available for the general purposes of each community college district's operation and support of its educational program. Resources with uses restricted by donors or other outside agencies are accounted for in the General fund Restricted.

GASB 35 specifies the reporting model format and focus of financial statements of state and local governments.

GOVERNMENTAL ACCOUNTING STANDARDS BOARD (GASB) 45 – GASB 45 requires that non-pension benefits for retirees, such as retiree health care, be shown as an accrued liability on the budget, similar to pension benefits. Rather than using pay-as-you-go for retiree benefits,

GASB 45 requires an estimate of the future value of such benefits for its retirees and then calculates an actuarially-derived yearly expense to be shown on its budget. While GASB 45 requires only accrued accounting of retiree benefits, failure to then fund the calculated annual liability may have additional audit and credit consequences.

INFLATION FACTOR - An increase in apportionment provided by the state to reflect the increased cost of operation due to inflation.

INSTRUCTIONAL ACTIVITIES AND EXPENDITURES – Expenditures for full-time and part-time faculty are considered when determining the costs of instructional activities.

LOTTERY - Approved by voters in November 1984, lottery games began in October 1985. Of the total lottery revenues generated, a minimum of 34% must be distributed to public schools and colleges for “education of pupils”. Lottery income has added about 3% to 4% to community college funding.

MANDATED COSTS - College district expenditures which occur as a result of federal or state law, court decisions, administrative regulations, or initiative measures.

MANDATORY ACTIVITIES AND EXPENDITURES – Costs from all full-time salaries and benefits (other than those directly related to instruction), contractual obligations, and operational requirements such as utilities, housekeeping, telephones, and trash removal are considered mandatory when preparing the budget. There are opportunities for identifying efficiencies within these areas.

MARGINAL FUNDING - A procedure whereby the gain or loss in funds for growth or decline in FTES is computed at a rate which is less than the average revenue per FTES.

MASTER PLAN - (sometimes called the Educational and Facilities Master Plan) – a written plan that results from a process by which the college assesses the needs of its educational service area and assures that all of its educational operations, facilities and other resources are effectively directed toward meeting those needs. A master plan includes chapters on the following: strategic plan, educational plan, technology plan, facilities plan, staffing plan, and resource plan.

NON-CREDIT FTES - FTES earned in non-credit courses, generally adult education.

NON-RESIDENT FEES - Students who have not been legal residents of the State of California for one year must pay non-resident fees to attend community colleges. These fees, which are set by the Board annually in accordance with State regulations, are currently \$160 per unit (2006-07).

OBJECT - Expenditure classification category of an item or a service purchased.

OTHER TRUST AND AGENCY FUNDS - Other Trust and Agency Funds are used to account for all other moneys held in a trustee capacity by the college or district for individuals, organizations, or clubs. Expendable trusts are established when the principal may be expended or disbursed. Such funds may be established and maintained in the appropriate county treasury or, as an alternative, the governing board may establish a bank account for each fund.

PLANNING AND BUDGETING COMMITTEE (PBC) - This committee serves as the steering committee for campus wide planning and budgeting. The PBC assures that the planning and budgeting are interlinked and that the process is driven by the institutional priorities set forth in the Educational Master Plan and other plans adopted by the college. The PBC makes recommendations to the president on all planning and budgeting issues and reports all committee activities to the campus community.

PER CAPITA PERSONAL INCOME - Income before taxes as estimated by the U.S. Department of Commerce.

PARTNERSHIP FOR EXCELLENCE (PFE) – In 1998, the State enhanced the community college budget on an FTES basis to be used to meet goals established for 2005-06 in 5 areas. Annual reports are submitted to the Board of Governors. Ed Code Section 84754 will sunset January 1, 2005.

PROGRAM-BASED FUNDING - A system whereby a program or activity generates revenue based on a formula or allocation without specifying where and how the funds must be spent.

PROPERTY OWNERS' TAX RELIEF - Residential property owners who occupy their own homes receive a property tax credit in California. As this results in reduced property tax revenues for tax-supported agencies such as community colleges, the State uses parts of its general revenues to cover the loss to the colleges.

PROPERTY TAXES - As described under "Apportionment", property taxes paid by district owners of residential and commercial property are a major source of funds for community colleges. For some years the State has adjusted apportionment to reflect actual property tax payments, so the total available to the colleges does not change as property tax payments rise or fall, but the State contributes more or less of the district's revenues from general revenues.

PROPOSITION 13 - An initiative amendment passed in June 1978, adding Article XIII A to the California Constitution. Tax rates on secured property are restricted to no more than 1% of full cash value. Proposition 13 also defined assessed value and required a two-third vote to change existing or levy other new taxes.

RESERVE - Funds set aside in a college district budget to provide for future expenditures or to offset future losses, for working capital, or for other purposes.

RESERVE FOR CONTINGENCIES – Funds set aside for a future emergency; a possibility that must be prepared against.

RESTRICTED FUNDS - Money which must be spent for a specific purpose either by law or by local board action.

REVENUE - Income from all sources.

REVENUE LIMIT - The specific amount of student enrollment fees, state and local taxes a college district may receive per pupil for its general education program. Annual increases are determined by Proposition 98 formula or the Legislature.

SCHEDULED MAINTENANCE - Major repairs of buildings and equipment which have been postponed by college districts. Some matching State funds are available to districts which establish a scheduled maintenance program. Prior to the 1997-98 fiscal year, the program was described as deferred maintenance.

SELF-INSURANCE FUNDS - (Education Code Section 81602) Funds designated to account for income and expenditures of self-insurance programs. This fund is maintained in the County treasury and used to provide for payments on deductible types of insurance policies and on losses or payments due to non-insured perils.

The funds account for all activities of the self-insurance program and are operated as Internal Service Funds using accounting principles applicable to insurance companies. In accordance with internal service funds accounting, the self-insurance funds charge other funds for their proportionate share of the estimated claims and expenses incurred, plus contingencies, and reflect the receipt of money as revenue.

Separate self-insurance funds may be established for each type of self-insurance or deductible activity (e.g., Workers' Compensation Self-Insurance Fund, Health Self-Insurance Fund, etc.); however, these separate funds may be consolidated into one self-insurance fund for state reporting purposes.

The balances of the self-insurance funds are restricted and cannot be considered part of the working cash available to other funds in the district.

SHORTFALL - An insufficient allocation of money, requiring an additional appropriation or resulting in deficits.

SPLIT ROLL - A system for taxing business and industrial property at a different rate from individual homeowners.

STATE APPORTIONMENT - An allocation of state money to a district based on total available general revenues less property taxes and enrollment fees.

STRATEGIC PLANNING – A proactive, future-oriented process that includes external analyses designed to determine the needs of the service area, and internal analyses designed to assess the college's ability to meet those needs; focus is on the next three to five years.

STUDENT FINANCIAL AID FUNDS - Funds designated to account for the deposit and direct payment of government-funded student financial aid, including grants and loans or other moneys intended for similar purposes and the required district-matching share of payments to students.

TIDELANDS OIL REVENUES - Money from oil on state-owned lands. When available, some of the revenues are appropriated for community college capital outlay needs.

TOP CODE - Taxonomy of Programs code number used in budget.

UNENCUMBERED BALANCE - That portion of an appropriation or allotment not yet expended or obligated.

UNFUNDED FTES - FTES which are generated in excess of the enrollment/FTES cap.

WSCH - "Weekly Student Contact Hours" are estimated hours of student "contact" with instructional personnel. WSCH, in turn, is the major element in the formula used to calculate FTES/ADA.
