texthelp®

Higher Education Summer Camp!

Join us for a summer full of learning, new ideas, and useful strategies! During our seven week series, we'll focus on the key features within *Read&Write* and *EquatIO,* while leaving you with practical strategies when working with students. Be sure to invite campus partners, administrators, instructional designers, or peers who might need to brush up on their knowledge, explore applicability on campus, or to help support the transition to online learning. Both beginners new to the products and experienced users wanting review will take away tidbits to add to their toolboxes.

Dates, Time and Topics:
Full session descriptions on the following page

Week 1: Tuesday, June 30th: Back to the Basics
Platforms & Places, Installation, & Training Resources

Week 2: Tuesday, July 7th: Reading & Study Skills
Who, What, Where, & How of Reading & Study Skills

Week 3: Tuesday, July 21st: Writing & Research
Who, What, Where, & How of Writing & Research

Week 4: Tuesday, July 28th: Alt Media & Document Workflow
Textbook and Professor File Creation, OCR Tools, and File Distribution

Week 5: Tuesday, August 11th: Tackling Math & Science Content with EquatIO
Teaching STEM Content Online & Creating Accessible STEM Content

Week 6: Tuesday, August 18th: Implementation Strategies: Groups & Across Campus
Gaining Allies, Funding, & Getting the Word Out to Students Internally or on Campus

Week 7: Tuesday, August 25th: Kickoff to Back to School
Updates and Need-to-Knows for the New Academic Year

**Time: All Camp Sessions will be held from 1:00-2:00pm CST**
11:00am PST; 12:00pm MST; 1:00pm CST; 2:00pm EST

Registration Link:
Sign up once for access to all weeks of our summer camp. Even if you can't make it, we'll send you copies of the recordings:
Texthelp Higher Education Summer Camp Registration Form

Your Summer Camp Counselor will be Rachel Kruzel - Territory Sales Director
Minnesota, Iowa, Wisconsin, Illinois, & Missouri

Full Session Descriptions

Week 1: Tuesday, June 30th: Back to the Basics
Read&Write works in a variety of places and applications where students commonly complete course work. We'll break down these locations, discuss the installation process, and provide an overview of the resources available for staff and student users.

Week 2: Tuesday, July 7th: Reading & Study Skills
Reading is a central instructional method in higher education. Ensuring students can read and understand is key. We'll discuss the reading tools built into Read&Write while focusing on study skills and practical strategies students can use. With the increase in remote, secure testing tools, we'll showcase developments around how Read&Write can support exam proctoring.

Week 3: Tuesday, July 21st: Writing & Research
In higher ed, writing is a key aspect used to assess understanding and learning. We'll walk through the writing process from a student's perspective while focusing on the tools within Read&Write that can support a writing assignment from start to finish.

Week 4: Tuesday, July 28th: Alt Media & Document Workflow
Campus staff are responsible for providing textbooks and course readings to students. We'll break down this workflow and leave you with a step-by-step process to help you create readable files. By capitalizing on tools built-in Read&Write as well as your file management system on campus, you can update and streamline your process before the new academic year begins.

Week 5: Tuesday, August 11th: Tackling Math & Science Content with EquatIO
Teaching STEM content online as well as ensuring that content is accessible can be a challenge for any campus. We'll feature EquatIO, our digital math and STEM creation tool, showing how it can:
- Support campuses as they teach STEM content online
- Support Disability & Accessibility Resource Offices as they create accessible math/STEM content
- Utilize this tool as a method of accommodation for students with disabilities

Be sure to invite your Instructional Designers or Document Remediators to this session!

Week 6: Tuesday, August 18th: Implementation Strategies: Groups & Across Campus
All students across campus can benefit from using Read&Write. We'll share implementation strategies as you get the word out to students who work with your office or across campus. We'll address strategies around gaining allies, administrative buy-in, rationalizations of need, and financial support.

Week 7: Tuesday, August 25th: Kickoff to Back to School
We've been busy this summer at Texthelp just as institutions have been preparing for the new academic year. We'll share Read&Write and EquatIO product updates, new resources for institutions and users, discuss the projected landscape of higher ed for the next year, and share usage strategies whether students are on campus or attending classes remotely.
