| SAO | EOPS Students who receive a book voucher will show higher success and retention rates compared to EOPS Students who did not receive a book voucher. | | |
| Participants | Valarie O’Guynn, Monica Macareno, Lillian Garcia, Joyce Duren, Dr. My, Michael Odanaka, Dr. Arroyo | | |
| Assessment Plan (include metrics to be collected) | Using data collected during fall 2012 we will compare the rates of success and retention based on students receiving book vouchers. A list of book vouchers issued during the fall semester by the EOPS program will be sorted to remove any duplicates. This list will then be removed from the EOPS master list for fall so we will have two data sets; one with students receiving book vouchers and the other with students who did not receive a book voucher. These lists will then be sent to Institutional Research so data analysis can be performed. | | |
| Results: Actions Taken: | The SAO for EOPS is currently in the assessment phase and will be completed after the end of the spring semester. | | |
